ASX Release

Appendix 4C – Q2 2021 Quarterly Cash Flow Report

29 July 2021 – Sydney, Australia – Oneview Healthcare PLC (“Oneview” or “the Company”) a global healthcare technology company today released its Appendix 4C – Quarterly Cashflow report for the quarter ending 30 June 2021 (Q2 FY21).

Operational Highlights

- Oneview signed a 5 year contract extension with Epworth HealthCare, the largest not for profit private health service in Victoria. Epworth is Oneview's largest customer in Australia and second largest globally, by number of beds. The Oneview platform is currently deployed across 8 Epworth hospital locations, in approximately 1,440 beds. As part of the contract renewal, Epworth will be migrating to Oneview's new Next Generation CXP Enterprise platform and deploying GMS certified healthcare grade 22" Android devices across its diverse care settings. Epworth will also be expanding its footprint with Oneview in its redevelopment at Epworth Eastern at Box Hill, with an additional 63 beds.
- Oneview Healthcare Plc signed Northern Health, Melbourne, as its first Cloud Start customer in Australia, for an initial contract of 126 beds with a term of 5 years. Northern Health is the major provider of acute, maternity, sub-acute and specialist services in Melbourne's rapidly growing outer north, through their four main campuses. Cloud Start enables patients to communicate with clinicians in a Covid-safe manner utilising Oneview's Care Experience Platform. The first 29 beds went live this week with the balance scheduled for August.
- Inaugural deployments of the WeTek IPTV set top box took place during the quarter at the Sydney Children's Hospital Network and UCSF.
- WeTek Coax set top box was successfully tested at two top-tier US customer sites. First commercial deployments expected in H2.
- Oneview continues to work with its new partner Samsung with respect to the go to market strategy. Early feedback has shown a preference for Cloud Enterprise vs. Cloud Start.
- Cloud Enterprise is now transactable in Microsoft's Azure Marketplace, meaning customers can buy via the Marketplace. This enables us to benefit from maximum co-sell focus from Microsoft, as well as enabling customers to count the cost of Oneview towards their Minimum Azure Consumption Commitments.
- A customer webinar was held with NYU Langone Health, featuring their Chief Medical Information Officer and Senior Product Manager, with 437 registrants including people from 85 hospital/health systems.

Outlook

The second quarter of the year marked the first quarter of sales and marketing for the Cloud Enterprise product. The Company is very pleased with the response of the market and has seen material increases in the sales pipeline in both key markets. The company has been selectively adding additional marketing, project management and customer success resources in the key US market based on the strength of the pipeline and the high quality of engagement with a number of well recognised health systems. This engagement, coupled with the arrival of the next generation hardware (AIO's and Coax set top box), in the coming weeks has positioned the Company for a strong second half.
